VLADA KANDYBA

FRONT END DEVELOPER

SKILLS

- JS, TypeScript
- React, Redux
- Hooks
- Git, GitHub
- Web3.js
- Ethers.js
- wagmi
- styled components
- GraphQL
- REST
- SASS
- SCSS
- Bootstrap
- Material-UI
- Agile/Scrum
- Storybook

PROFILE

Experienced Frontend Developer specializing in Web3 and decentralized applications with strong analytical and problem-solving abilities. Proven track record in blockchain integration, smart contract interaction, and building scalable dApps. Actively contributing to the Web3 ecosystem through open-source projects and hackathon participation. Seeking to leverage expertise in a challenging role within innovative blockchain organizations.

WORK EXPERIENCE

Front-End Developer

SheCodes

2022-2025

- Delivered fast and efficient bug fixes, often within 24 hours, ensuring seamless user experience.
- Provided technical assistance with CSS, JavaScript, GitHub, Netlify, React, and Bootstrap, helping resolve issues quickly
- Refactored and optimized course platform UI, improving responsiveness and accessibility across all devices
- Contributed to the launch of the new Python course, implementing frontend components for interactive coding exercises.
- Developed and maintained test cases to ensure stability across new course features and student submissions.
- Enhanced student progress tracking dashboards, integrating API-based real-time data updates.
- Implemented i18n (internationalization) support to improve accessibility for global students.
- Optimized course video player UI and implemented lazy loading for faster page performance.

Tech Stack: JavaScript, React, Redux, Python, GitHub, Netlify, Bootstrap, CSS, SCSS, REST API, Axios, Node.js, Formik

Software Developer

WunderAI

2020-2023

- Refactored and tested code to improve software stability and maintainability.
- Developed a swipe-based product selection UI and ensured pixel-perfect design across all browsers and devices.
- Integrated a customized barcode scanning library enhancing product search capabilities.
- Built and maintained reusable components for an internal component library.
- Ensured consistency by following strict code guidelines and project architecture.
- Actively participated in code reviews and architectural decisions.
- Developed and deployed a production-ready SPA, driving 10,000+ new user sign-ups.
- Developed interactive UI features for complex user interactions, including adjustable LAB color values for skin tone matching.
- Resolved critical cross-browser compatibility issues, ensuring consistent behavior on iOS and Android.

Tech Stack: React, Redux, Redux Toolkit, React Routing, Styled Components, SCSS, Framer-motion, Jest, Cytoscape.js, Formik, Apollo-GraphQL, i18next, Matomo Tracking

EDUCATION & CERTIFICATIONS

National Taras Shevchenko University,
BA in Computer Engineering

Creative React and Redux Bootcamp,

Front End Developer Bootcamp, DanIT
